Port Facilities by Waterway

Waterway: **Mississippi River** Mile: 230.0 PWD: 042
Name: **Capital Fleet Landing, and Fleets Nos. 2, 3, 4 and 5**
Port: Baton Rouge
Location: Mile 230.0 A.H.P., left bank, Mississippi River, approximately 0.7 mile above Interstate Highway 10 Brid Datum: LWRP
Operator: Capital Fleet, Inc. and Acadian Marine.
Owner: William Grantham
Address: 555 North River Road Phone: 225-343-2226
Town: Baton Rouge State: LA County: E. Baton Rouge
Railway Connection: None.
Purpose: Landing for tugboats, towboats, launches, and, occasionally, for cruise vessel passengers; mooring company-owned midstream fueling barges and towboats; mooring barges for fleeting.
Depth Alongside (feet): 10 | 10 | Latitude (decimal): 30.451944
Total Berthing Space (feet): 625 | 200 | 1,000 Longitude (decimal): -91.19139
Remarks: Occasionally Delta Queen Steamboat Co. lands passengers from cruise vessels at wharf. Custom Fuel Services, Inc. operates two midstream fueling barges from fleet, and Acadian Marine operates company-owned towboats from wharf. Capital Fleet's Fleet No. 2 extends along natural bank with shore moorings above wharf, from Mile 230.0 to 230.4 A.H.P.; total capacity 40 barges, moored 8 wide. Fleet No. 3 is between mooring buoys offshore of wharf and Fleet No. 2;capacity 80 barges, moored 8 wide. Two fleets extend along west bank: Fleet No. 5 on shore moorings, from Mile 230.1 to 230.8 A.H.P.; total capacity 90 barges, moored 6 wide; and Fleet No. 4 moored to buoys on anchor piles, fromMile 230.8 to 231.6 A.H.P.; total capacity 96 barges in 4 blocks, each including 24 barges.

Port Series: 21 Year of Last Survey: 2002 Corps of Engnrs Waterway Code: 20228 New Orleans District

---

Waterway: **Mississippi River** Mile: 230.1 PWD: 070
Name: **West Baton Rouge Tourist Commission, Court Street Landing.**
Port: Baton Rouge
Location: Mile 230.1 A.H.P., right bank, Mississippi River, approximately 0.8 mile above Interstate Highway 10 Bri Datum: LWRP
Operator: West Baton Rouge Tourist Commission
Owner: West Baton Rouge Tourist Commission
Address: Foot of Court Street. Phone: 225-344-2920
Town: Port Allen State: LA County: W. Baton Rouge
Railway Connection: None.
Purpose: Mooring barge. (See Remarks)
Depth Alongside (feet): | | Latitude (decimal): 30.452778
Total Berthing Space (feet): 280 | | Longitude (decimal): -91.20083
Remarks: At time of survey (2002) Anderson-Tully Timber Co. moored a log-handling barge at landing. Barge, equipped with excavators and access ramp from shore, formerly was used as wharf for shipment of logs by barge. Owner of landing planned to construct a levee-top park, blocking access to river from foot of Court Street, and restrict mooring at site in future.

Remarks: Open storage area at rear is described under Berth No. 1 (Ref. No. 11). Barges are generally unloaded in three passes, heading downstream under unloader. Four 1,000-horsepower tugboats handle barges to and from loading/unloading facilities. Additional barge mooring area is available along left bank at 19 mooring dolphins located above terminal, capacity 160 light barges, and at shore moorings below terminal, capacity 242 loaded barges. In-stream mooringbuoys for one ocean vessel are above terminal.

Port Series: 20 Year of Last Survey: 2002 Corps of Engnrs Waterway Code: 20055 New Orleans District

Total Berthing Space (feet): 1,164 | | 1,182 Longitude (decimal): -89.88972

Port Facilities by Waterway

Waterway: **Mississippi River** Mile: 55.2 PWD: 010

Name: **TECO Bulk Terminal, Berth No. 2.**

Port: Below New Orleans

Location: Mile 55.2 AHP, left bank, Mississippi River, Davant. Datum: MLG

Operator: TECO Bulk Terminal, a TECO Energy Co.

Owner: TECO Bulk Terminal, a TECO Energy Co.

Address: 14537 Hwy. 15, Davant Phone: 985/333-7219

Town: Davant State: LA County: Plaquemines

Railway Connection: None.

Purpose: Receipt of miscellaneous dry bulk commodities including coal, iron ore, fertilizer, scrap steel, pig iron, hyperketite iron, and limestone by vessel.

Depth Alongside (feet): 50 | | 30 - 40 Latitude (decimal): 29.615278

Total Berthing Space (feet): 1,164 | | 1,182 Longitude (decimal): -89.88972

Remarks: Each face of wharf is in line with respective face of Berth No. 1 (Ref. No. 11) providing approximately 3,100 feet of continuous berthing space along each face. Steel catwalk connecting dolphins and platforms continues to connect dolphins and lower side of Berth No. 1 (Ref. No. 11). One 300-ton-capacity surge bin with barge-loading spout is located on steel breasting platform on each side of wharf. Approach also serves lower side of Barge Unloading BerthNo. 2 (Ref. No. 13) and upper side of Barge Unloading Berth No. 1 (Ref. No. 12). Open storage area at rear is described under Berth No. 1 (Ref. No. 11). Facility also provides for direct transfer of dry bulk commodities betweenocean and river vessels.

Depth Alongside (feet): 46 | 40 | Latitude (decimal): 29.621667
Total Berthing Space (feet): 1,044 | 1,044 | Longitude (decimal): -89.915
Remarks: Open storage area is described under Bulk Commodities Dock (Ref. No. 35). Barges waiting to be unloaded at Bulk Commodities Dock, as well as empty barges awaiting transport to fleeting area are moored at rear of face and at 2 anchor buoys located 1,000 feet downstream. Elmwood Myrtle Grove Cleaning and Repair operates a barge cleaning and repair service at 3 permanently-moored barges at approx. River Mile 56.1, right bank, below the IMT docks. A 2,600-ton drydockis moored near the shoreline at the rear of the Bulk Aggregate wharf. At time of survey (2002), plans called for construction of a service road over the levee to the repair facility.

Remarks: Face of platform is in line with face of Crane Dock (Ref. No. 34), providing 1,271 feet of continuous berthing space, however, special arrangements are required for vessels exceeding 800-foot in length or 105-foot beam. Shuttle barge operates with loaded barges attached to each end. After a barge has passed through the slipway and been unloaded, it is replaced with a loaded barge transferred from the barge moorings described under Ref. Nos. 34 and 36by a harbor tug. After the second barge is unloaded, the direction of travel is reversed, and the operation is repeated. Open storage area located at rear has capacity for 750,000 tons of bulk aggregate and is served by two 72-inch,reversible, electric belt conveyors, each in turn served by one traveling bucket-wheel stacker/reclaimer, operating rate 4,600 tons per hour, each. In addition, 4 bulldozers and 3 front-end loaders serve open storage area.

Name: **Delta Terminal Services, Inc., Harvey Wharf No. 1.**

Port: New Orleans

Location: Mile 98.6 A.H.P., right bank, Mississippi River, approximately 0.5 mile above entrance to Harvey Canal, Datum: MLG

Operator: Delta Terminal Services, Inc.

Owner: Delta Terminal Services, Inc.

Address: 3540 River Road Phone: 504/371-3240

Town: Harvey State: LA County: Jefferson

Railway Connection: Fourteen surface tracks serve 300-car capacity tank car loading racks in rear; connect with Union Pacific Railroad and Norfolk Southern Railway Co.

Purpose: Receipt and shipment of petroleum products, chemicals and miscellaneous bulk liquids by vessel and barge.

Depth Alongside (feet): 32 | 10 - 30 | 10 - 30 Latitude (decimal): 29.91

Total Berthing Space (feet): 700 | (See | Longitude (decimal): -90.09083

Remarks: Up to 900 feet of berthing space can be provided by overlapping Wharf No. 2 (PWD Ref. No. 183). Seven 10-, three 8-, and three 6-inch pipelines extend from wharf to 94 steel storage tanks at terminal in rear, total capacity 1,500,000 barrels. Facility is operated for public storage of bulk liquids. Wharf is served by one 6-inch steam- and one 6-inch compressed air lines.

Port Series: 20 Year of Last Survey: 2001 Corps of Engnrs Waterway Code: 20095 New Orleans District

Name: **PPG 'A' Dock.**
Port: Lake Charles
Location: Old River Channel of Calcasieu River, opposite west side of Coon Island, 0.8 mile above junction with Ca Datum: MLG
Operator: PPG Industries, Inc.
Owner: PPG Industries, Inc.
Address: 1300 PPG Drive Phone: 337-708-4585
Town: Westlake State: LA County: Calcasieu
Railway Connection: Plant trackage in rear connects with Kansas City Southern Railway and Union Pacific Railroad.
Purpose: Receipt of ethylene. Shipment of vinyl chloride and ethylene dichloride.
Depth Alongside (feet): 40 | | Latitude (decimal): 30.214722
Total Berthing Space (feet): 400 | | Longitude (decimal): -93.28139

Remarks: *'E' and 'D' Docks (Ref. Nos. 107 and 108) have 12 timber breasting dolphins in line with faces, providing a total of 660 feet of continuous breasting distance and approximately 775 feet of berthing space. Two 8-inch caustic soda pipelines with a common 8-inch hose connection on wharf extend to wharf from 12 steel storage tanks at rear, total capacity approximately 169,400 tons. In addition, one 2-inch steam and one 2-inch compressed air lines serve wharf.

Address: 1300 PPG Drive Phone: 337-708-4585
Town: Westlake State: LA County: Calcasieu
Railway Connection: Plant trackage in rear connects with Kansas City Southern Railway and Union Pacific Railroad.
Purpose: Shipment of liquid caustic soda.
Depth Alongside (feet): 10 | | Latitude (decimal): 30.230278
Total Berthing Space (feet): 410 | | Longitude (decimal): -93.27722

Remarks: *'E' and 'D' Docks (Ref. Nos. 107 and 108) have 12 timber breasting dolphins in line with faces, providing a total of 660 feet of continuous breasting distance and approximately 775 feet of berthing space. Two 8-inch caustic soda pipelines with a common 8-inch hose connection on wharf extend to wharf from 12 steel storage tanks at rear, total capacity approximately 169,400 tons. In addition, one 2-inch steam and one 2-inch compressed air lines serve wharf.

Port Series: 21 Year of Last Survey: 2001 Corps of Engnrs Waterway Code: 20955 New Orleans District

Operator: Conoco, Inc.
Owner: Conoco, Inc.
Address: Phone: 337-491-5613
Town: Westlake State: LA County: Calcasieu
Railway Connection: None.
Purpose: Receipt of crude oil; shipment of petroleum products.
Depth Alongside (feet): 40 | | Latitude (decimal): 30.231944
Total Berthing Space (feet): 695 | | Longitude (decimal): -93.25889
Remarks: One 24-inch crude oil pipeline and one 16-inch, steam-traced, and three 12-, four 10-, two 8-, and one 4-inch petroleum product pipelines connect wharf to respective Conoco Refinery storage tanks described under Dock No. 3 (Ref. No. 101). Two 12-inch, steam-traced, pipelines extend from the fuel oil storage tank at the terminal described under Dock No. 2 (Ref. No. 102), and the refinery petroleum products storage tanks. One 12-inch ballast pipeline, outof service at time of survey, extends from 16-inch pipeline on wharf to one 55,000-barrel, steel storage tank at terminal. One 2-inch carbon dioxide and one 2-inch steam lines serve wharf. One 12-inch pipeline extends from wharf toflare tower at the terminal.

Two 8-inch petroleum slurry pipelines extend to wharf from 2 storage tanks at refinery, total capacity 160,000 barrels. One 12-inch, steam-and electric-traced, heavy vacuum residuals pipeline extends from 10,000-barrel tank at terminal. One 8-inch methanol pipeline extends from wharf to 630,000-gallon tank at the terminal. One 2-inch carbon dioxide and one 2-inchsteam lines serve wharf.

Port Series: 21 Year of Last Survey: 2001 Corps of Engnrs Waterway Code: 20955 New Orleans District

Remarks: Two 12-inch crude oil pipelines, and one 12- and four 10-inch petroleum product pipelines, connect wharf to respective Conoco refinery tanks described for Dock No. 3. One 4-inch, metered diesel fuel pipeline with 4- and 2-inch hose connections extends from one of the 10-inch lines. Four 10-inch lube oil pipelines connect to storage tanks described under Dock #3 (Ref. No. 101). One 12-, and one 10-inch, steam-traced, fuel oil pipelines extend to wharf from25,000-barrel storage tank at terminal and the refinery petroleum product storage tanks. Two 8-inch petroleum slurry pipelines extend to wharf from 2 storage tanks at refinery, total capacity 160,000 barrels. One 12-inch, steam-and electric-traced, heavy vacuum residuals pipeline extends from 10,000-barrel tank at terminal. One 8-inch methanol pipeline extends from wharf to 630,000-gallon tank at the terminal. One 2-inch carbon dioxide and one 2-inchsteam lines serve wharf.

Remarks: Wharf was under construction at time of survey (2000) and is described as planned. Two 12-inch crude oil pipelines extend from wharf to 7 steel storage tanks at Conoco Oil Refinery on opposite side of Interstate Highway 10, total capacity 1,674,000 barrels. One 16-inch fuel oil and four 12-, three 10-, three 8- and one 4-inch petroleum product pipelines extend to wharf from 39 steel storage tanks at refinery, total capacity 3,347,200 barrels. Four10-inch lube oil pipelines connect to 12 storage tanks, total capacity 1,300,000 barrels. The following petrochemicals are handled by the terminal for Vista Chemical Co.'s Lake Charles LAB and Chemical plants: One 10-inchalkylate pipeline extends to the wharf from one 1,008,000-gallon storage tank at terminal; one 6- and one 4-inch alcohol pipelines extend from 2 storage tanks at terminal, total capacity 2,730,000 gallons. One 2-inch carbon dioxideand one 2-inch steam lines serve wharf.

Waterway: **The Loop, Calcasieu River** Mile: PWD: 100

Name: **Mike Hooks Slip.**

Port: Lake Charles

Location: The Loop Channel of the Calcasieu River, opposite east side of Clooney Island, approx. 0.6 mile above tu Datum: MLG

Operator: Mike Hooks, Inc.

Owner: Mike Hooks, Inc.

Address: 409 Mike Hooks Road Phone: 337-436-6693

Town: Westlake State: LA County: Calcasieu

Railway Connection: None.

Purpose: Mooring and repairing company-owned floating equipment, primarily dredges. Handling construction supplies, materials, and equipment to and from barges.

Depth Alongside (feet): 14 | 14 | 14 Latitude (decimal): 30.226667

Total Berthing Space (feet): 100 | 430 | 320 Longitude (decimal): -93.25306

Remarks: Additional mooring in 12-foot water depth is available along 250 feet of natural bank below slip and at 400 feet of natural bank above slip, all fronting open storage yard. A 165-foot, timber bulkhead with solid fill, along lower side of 300- by 250-foot slip at upper side of yard, is 8 feet high and provides 300 feet of berthing space in 12 feet of water. Facility is used as a base for dredging and marine construction work.

Port Series: 21 Year of Last Survey: 2001 Corps of Engnrs Waterway Code: 20955 New Orleans District

Waterway: **Tidewater Access Canal** Mile: PWD: 125

Name: **D & B Seafood Wharf.**

Port: Below New Orleans

Location: North east side of Venice Boat Basin, from right bank, Tidewater Access Canal, approximately 1,000 feet Datum: MLG

Operator: D & B Seafood Co.

Owner: Plaquemines Parish Commission Council.

Address: Venice Boat Basin Phone: ----------

Town: Venice State: LA County: Plaquemines

Railway Connection: None.

Purpose: Receipt of seafood; icing fishing vessels; mooring fishing vessels.

Depth Alongside (feet): 12 | 12 | 4 - 6 Latitude (decimal): 29.241389

Total Berthing Space (feet): 150 & | 60 + | 100 + Longitude (decimal): -89.36389

Remarks: Open-walled shed shelters platform. One 5-inch pneumatic hose for icing vessels extends to wharf from truck-supplied storage building. A depressed, 2-bay, truck loading ramp is located at rear of platform.

Port Series: 20 Year of Last Survey: 2002 Corps of Engnrs Waterway Code: 20452 New Orleans District

Port Facilities by Waterway

Waterway: **Tidewater Access Channel** Mile: PWD: 124

Name: **Venice Seafood Exchange, Venice Dock**

Port: Below New Orleans

Location: Right bank of Tidewater Access Channel and southeast corner of Plaquemines Parish Venice Boat Harbor bas Datum: MLG

Operator: Venice Seafood Exchange.

Owner: Plaquemines Parish Commission Council.

Address: 140 Tante-Phine Road. Phone: 985/534-9833

Town: Venice State: LA County: Plaquemines

Railway Connection: None.

Purpose: Receipt of seafood; mooring and fueling fishing vessels.

Depth Alongside (feet): 14 | 14 | 14 Latitude (decimal): 29.238889

Total Berthing Space (feet): 150 | 90 | 250 Longitude (decimal): -89.36111

Remarks: Auxiliary dock, consisting of a 150-foot-long bulkhead across the road from the main receiving wharf, occasionally serves vessels in the Tidewater Access Channel. Depth alongside of 20 feet at the auxiliary dock is available. Auxiliary wharf is equipped with a recieving hopper and an electric, belt-conveyor sytem for unloading catch. Fueling pipelines extend to main wharf from 3 steel storage tanks located at rear, total capacity 50,000 gallons.Top-off ice for fishing vessels is available by truck delivery.
