

# **LAKE KEMP REALLOCATION AND YIELD DETERMINATION WITH RIVERWARE'S MRM**

**John Daylor**

**Corps of Engineers, Tulsa District**

**Contributors:**

**Sarah Harris, Corps of Engineers, Tulsa**

**Mary Ann Duke, Corps of Engineers, Tulsa**

**Allen Avance, Corps of Engineers, Ft Worth**

**David Neumann & CADSWES Staff**

# **RIVERWARE.....**

**...a modeling environment for  
reservoir system planning, operations  
and analysis...**

**Center for Advanced Decision Support  
for Water and Environmental Systems,  
University of Colorado, Boulder**

# **CADSWES HOMEPAGE.....**

**...mission is to research, design, prototype and develop integrated decision support systems to help solve real-world water resources and environmental problems.**

**Primary research partners:  
BoR, TVA, and CoE**

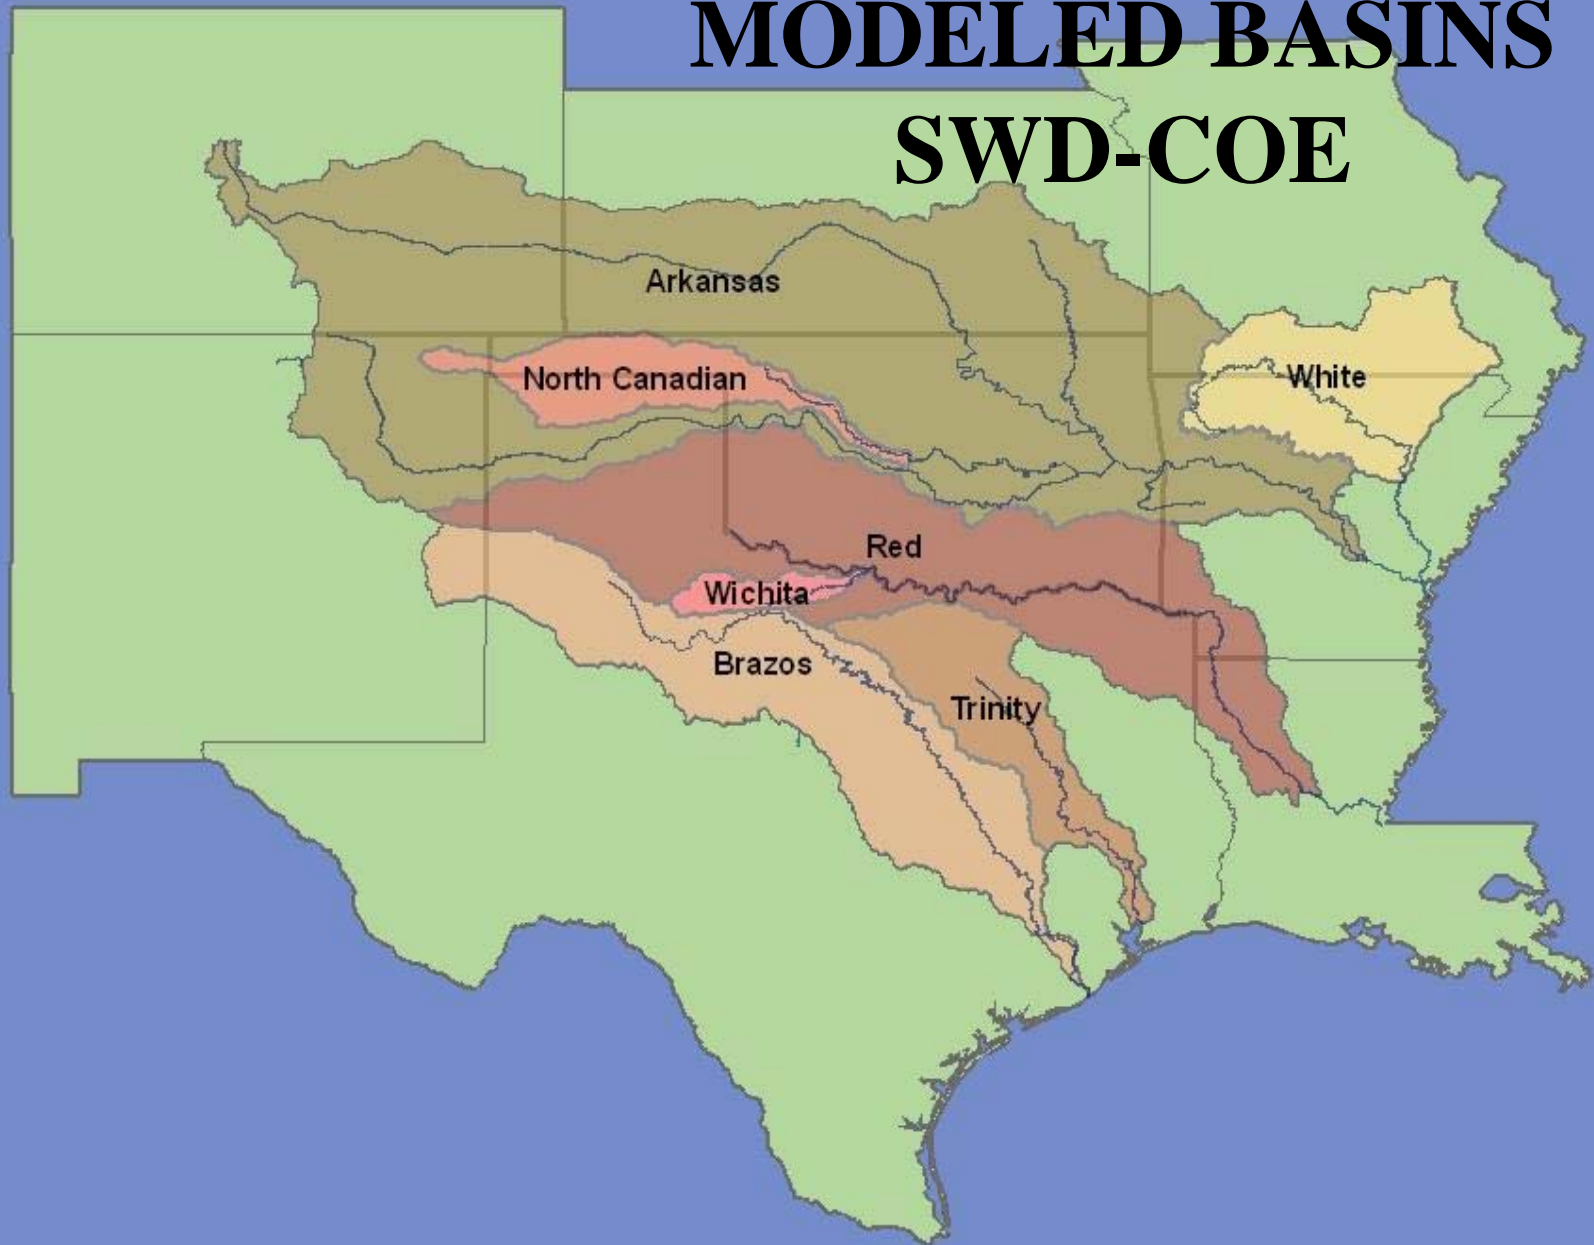

# **LAKE KEMP..... REALLOCATION STUDY ONGOING**

**TODAY'S DISCUSSION:  
CONCENTRATE ON PROCESS ,  
NOT RESULT No's**

# MODELED BASINS SWD-COE

**Wichita River Basin: approx 3,480 sq mi**

**Lake Kemp: approx 2,090 sq mi**

**USACE storage divisions and balance levels**

# **RIVERWARE APPROACH:**

- **SWD CoE Flood Control Balancing Method**
- **Rules Based**
- **79-Year Period of Record Daily Simulation**
- **Multi-Run-Mgr for Yield**
- **Base Condition & Alternative Runs**
- **Statistics: Evaluation & Mitigation**
