International Scholarships Available for Master Degree in Integrated Water Management

ALEXANDRIA, VIRGINIA. The International Water Centre (IWC) announced its current offering of several full scholarships for high caliber international candidates interested in studying the Master of Integrated Water Management (MIWM) commencing in Semester 1, 2016 at The University of Queensland. The program was created as a unique collaboration between four leading Australian universities: The University of Queensland, Griffith University, MONASH University, and The University of Western Australia.

While students enroll at The University of Queensland, modules are jointly delivered by world-leading industry experts and lecturers from IWC's four founding universities. Upon graduation, students receive a co-badged degree, with a diploma displaying the logos of all four universities.

Up to three international scholarships are available: up to two full tuition and full living costs scholarships (each valued at AU\$ 89,811) and one full tuition scholarship (valued at AU\$ 50,776). Partial scholarships will also be available to self-funded students (up to \$9,500 - including flights to Australia for citizens of the United States, Canada and the European Union).

Applications are due August 1, 2015. The MIWM program is custom-designed and collaboratively delivered by leading industry practitioners and lecturers from IWC's founding member universities. Students can choose between three specializations including

- International Development,
- Urban Water, or
- Water Land and People.

IWR and ICIWaRM are proud support water education and opportunities like this around the globe.
