BUILDING STRONG®

Coastal Shoreline Management FY10 (2010)

Status: **Project Manager:**

In Progress [Charles Chesnutt](#)

Purpose: Represent the Assistant Secretary of the Army (Civil Works) at interagency initiatives on Ocean Activities, provide staff support to the President of the Coastal Engineering Research Board, and provide primary support to the DCW in his on-going collaborations with the NOS.

Objective: This includes developing the plan, objectives, outcomes, and the agenda for each major theme meeting as well as any executive sessions. Support the Board in accomplishing its various assignments and initiatives. Provide strategic and technical coastal engineering leaderships working with HH&C, CoP and other agencies. Provide strategic integration of flood risk management across inland and coastal programs and emerging international partnerships.

Benefits: Coastal Shoreline Management work representing Corps and ASA-CW, CERB supporting Corps HQ, and Interagency work supports ASA-CW.
