BUILDING STRONG®

EVM Study Support (2010)

Status: **Project Manager:**

In Progress [John Singley](#)

Purpose: The Corps is conducting a three-year study to investigate the implementation of EVM on Corps projects. IWR is providing an EVM expert and adviser to the study.

Objective: The objective is for the study team to review and comment on key documents and activities by participating in weekly teleconferences.

Benefits: This project will contribute to the effectiveness and efficiency of the study team by offering technical advice on EVM and by assisting with identifying available resources.

Progress: Progress is being made. Meetings and teleconferences are being attended and inputs are being provided as needed.
