BUILDING STRONG®

Economics Subject Matter Expert Database (2010)

Status: **Project Manager:**

In Progress [Erin Rooks](#)

Purpose: This project will develop a model (Subject Matter Expert (SME) database) that incorporates data on all Corps Economists, their expertise, years of experience and so on. The information would be incorporated into an Access database that may or may not be web-based.

Objective: The objective is to create a stand alone and possibly web-accessible database to describe the knowledge, skills and abilities of Corps economists with user input.

Benefits: This information would be extremely valuable to Districts, MSC's, PCX's, HQ, and whomever else would need to identify the appropriate Economic expertise for the task. It also is directly linked to the Campaign Plan Goal #4 "Build and cultivate a competent, disciplined, and resilient team equipped to deliver high quality solutions."
