Institute for Water Resources

BUILDING STRONG®

## IWR Annual Report and News Items for IWR Website (2010)

**Status:**            **Project Manager:**

In Progress        [Kenneth Lichtman](#)

---

**Purpose:**            The purpose of this project is to prepare a written report on IWR activities for inclusion in the Annual Report of the Secretary of the Army on Civil Works Activities. This project also features the development of articles to appear on the IWR website. This project communicates IWR's activities including the development of new planning techniques and methodologies, models, and other tools in the advancement of water resources planning and policy.

---

**Objective:**        The project objective is the preparation of the IWR Annual report and articles which appear on the IWR website.

---

**Benefits:**         The preparation of the Annual Report and articles which appear on the IWR website benefit individuals by informing them of the ongoing activities including the development of new planning techniques and methodologies, models, and other tools in the advancement of water resources planning and policy.

---

**Progress:**        The IWR Annual Report has been included in Annual Report of the Secretary of the Army on Civil Works Activities for the past several years and is an important communication vehicle by which the public is informed of the activities of the Institute. The publication of short articles which appear on the IWR website communicate information to the public on the on going work of the Institute in the areas of water resources planning and policy development and modeling tools and techniques.
