BUILDING STRONG®

IWR Civil Works Business Support (2010)

Status: **Project Manager:**

In Progress [David Lichy](#)

Purpose: 1.Foster knowledge of Business Lines needs and opportunities for IWR Focus Areas.
2.Foster knowledge of the IWR Focus Areas for IWR Business Lines Manager.
3.Develop FY 2010 Targets and Requirement for intersecting initiatives. 4.Prioritize IWR Business Lines Manager activities in support of IWR. 5.Explore market opportunities for the three IWR Focus areas from a Business Line perspective

Objective: The responsibilities and purpose of the IWR Business Line Manager are: 1.Integrate
a.To have knowledge of all IWR activities related to the respective business line.
b.Cognizance of the Corps Strategic Plan, Integrated Watershed Management and the relationship to the respective business line. c.Foster integration at IWR between & across BL, CoP, RIT, and Center of X. 2.Think Critically a.To understand and seek the Corps Business Line future needs, identify information gaps, and provide support for future initiatives. 3.Evaluate a.Maintain an understanding of the concerns and problems of the HQ Business Lines Proponent and investigate what IWR skills are available to assist the HQ Business Lines Proponent 4.Execute a.Propose IWR projects and funding priorities to the Director

Benefits: This project will ensure coordination, foster integration, maintain an understanding of the concerns and problems of the HQ Business Lines. This will ensure IWR is relevant in our support to the Corps Civil Works Business line Managers.
