BUILDING STRONG®

International Lake of the Woods and Rainy River Watershed Task Force (2011)

Status: Completed

Purpose: The International Lake of the Woods and Rainy River Watershed Task Force will examine and make recommendations regarding the binational management of the international waters of the Lake of the Woods and Rainy River system and the IJC's potential role in this management. This review would serve to complement government activities that foster trans-jurisdictional coordination and collaboration on science and management activities to enhance and restore water quality in the basin. It would also contribute to any future approach to addressing new and emerging water quality issues and water management needs.
