BUILDING STRONG®

Regulatory Support Program (2011)

Status: Completed

Purpose: Policy-level support and data development to HQ Regulatory SubCOP and Business Line. This support is integral to national aquatic resources regulatory policy development and provides data collection and analysis and advice to support ongoing policy development.

Objective: To provide policy, technical and program support to the Headquarters, District and Division Regulatory Community of Practice

Benefits: Because of a limited staff at HQ, IWR provides support to the Regulatory Community of Practice by evaluating draft and final proposals and identifying possible effects on implementation of the program.
