BUILDING STRONG®

Revise Appendix E of ER1105-2-100 (2010)

Status: **Project Manager:**

In Progress [Kevin Knight](#)

Purpose: Since 2000, there have been many new policies and procedures put forth by HQUSACE. IWR has also recently completed its OSE and RED Handbooks. At the same time, the P & G is being revisited.

Objective: The revisions will be published in an update to Appendix E of ER1005-2-100. This will ultimately help field offices with their plan formulation, evaluation and selection of projects.

Benefits: The benefits of updated guidance are multi-fold. Most important, it will lessen the burden on HQUSACE and MSCs in explaining the new policies and procedures.
