Institute for Water Resources

BUILDING STRONG®

WAM Certification (2010)

Status: **Project Manager:**

In Progress [Mark Lisney](#)

Purpose: The Planning Models Improvement program requires that all Planning models undergo a review and certification process. This project will certify the Waterways Analysis model used for Inland Navigation Economic Studies.

Objective: The objective of this project is to review and certify the Waterways Analysis model for planning purposes.

Benefits: Project benefits will include assurance that the Waterways Analysis model is robust and appropriate for use in the Inland Navigation Economic Studies.

Progress: As of 24 August 2010 my duties are essentially complete on this project. The project is now being transferred by the PCXIN to HQ for a certification decision.
