

Program:

Water Supply Program Support

IWR Contact: [POC](#)

Description: Under the leadership of Ted Hillyer, IWR provides direction and support for the Corps Water Supply Business Program. The program consists of: (1) management of the Corps' water supply business program through development of the yearly water supply budget and the support of this budget to the HQ leadership, ASA (CW), OMB and others as required; and (2) management of the IWR water supply support activities. Such support activities consists of development and upkeep of the OMBIL water supply module and subsequent report requirements; providing technical support to HQ, the MSCs and districts; participating in the Planning Associates Program; support of Future Directions program; and other items as they surface.
