SUMMARY OF CONVERSATION

1. Mr. Nutter wanted to know what exactly will be included in the package NOD is sending by Federal Express relative to responding to Mr. Gianelli's request for a copy of the EIS. He was particularly interested in what part, if any, of the EIS would be furnished. According to Ed, COL Myers has the MEMO for ASA(CW) on his desk and wants to include some specific mention of the EIS.
2. I informed Ed that the NOD package will include the following items (based on information from Mr. Joey Dykes, NOD):
 - a. Working-level draft of reevaluation report.
 - b. Preliminary draft of main report and EIS (unedited). The EIS is missing Section 7 (List of Preparers). Some plates are just stuck in. The plates are not numbered. Plate and table numbering is out of sequence because revisions and refinements are still being made in the draft report.
 - c. Final draft of Appendix A, Engineering Investigations (unedited). This appendix is missing some tables and all plates.
 - d. Final draft of Appendix B, Economic Analysis (partly edited).
 - e. Final draft of Appendix C, Environmental Resources (partly edited). This appendix is missing Section 8 (Land Use Methodology) and Section 9 (U.S. Fish and Wildlife Coordination Act Report).
3. I cautioned Ed that there will probably be discrepancies between documents because editing and overall coordinated review have not been completed at the District level. I informed Ed that Federal Express is expected to pick up the package in NOD sometime before 3:30 p.m. today, and that it should be delivered to Mr. Jim Davidson early tomorrow.
