

NEW YORK STATE HURRICANE EVACUATION RESTUDY TECHNICAL DATA REPORT

for New York City, Nassau, Suffolk, and Westchester Counties

TABLE OF CONTENTS

WELCOME

CHAPTER 1—STUDY AREA

INTRODUCTION

| | |
|-------------------------------|-----|
| STUDY PURPOSE..... | 1-1 |
| FUNDING..... | 1-2 |
| AUTHORITY..... | 1-2 |
| COORDINATION INFORMATION..... | 1-2 |

DESCRIPTION OF STUDY AREA

| | |
|-----------------------------|-----|
| GEOGRAPHY..... | 1-2 |
| GEOLOGY AND TOPOGRAPHY..... | 1-3 |
| BATHYMETRY..... | 1-4 |
| DEMOGRAPHICS..... | 1-4 |

HISTORICAL HURRICANE ACTIVITY

| | |
|--------------------------------------|-----|
| GENERAL..... | 1-5 |
| ATLANTIC TROPICAL CYCLONE BASIN..... | 1-6 |
| NEW YORK CITY / LONG ISLAND..... | 1-6 |

HURRICANE EVACUATION STUDIES ANALYSES

| | |
|-----------------------------|-----|
| GENERAL..... | 1-7 |
| HAZARDS ANALYSIS..... | 1-8 |
| VULNERABILITY ANALYSIS..... | 1-8 |
| BEHAVIORAL ANALYSIS..... | 1-8 |
| SHELTER ANALYSIS..... | 1-8 |

TABLE OF CONTENTS

| | |
|---|------|
| TRANSPORTATION ANALYSIS..... | 1-9 |
| HURREVAC / DECISION TOOLS..... | 1-9 |
| CHAPTER 2—HAZARDS ANALYSIS | |
| INTRODUCTION | |
| PURPOSE..... | 2-1 |
| FORECASTING INACCURACIES..... | 2-1 |
| SAFFIR/SIMPSON HURRICANE SCALE..... | 2-2 |
| STORM SURGE | |
| INTRODUCTION..... | 2-4 |
| FACTORS AFFECTING SURGE HEIGHT..... | 2-4 |
| TOTAL FLOOD ELEVATION..... | 2-4 |
| THE SLOSH MODEL | |
| GENERAL..... | 2-5 |
| SLOSH GRID CONFIGURATION..... | 2-6 |
| VERIFICATION OF THE MODEL..... | 2-7 |
| MODEL OUTPUT..... | 2-7 |
| NEW YORK STATE MODELING PROCESS. | |
| SIMULATED HURRICANES..... | 2-15 |
| MAXIMUM ENVELOPES OF WATER (MEOWS)..... | 2-15 |
| MAXIMUMS OF THE MEOWS (MOMS)..... | 2-23 |
| ADJUSTMENTS TO SLOSH MODEL VALUES/STATISTICAL ANALYSIS..... | 2-32 |
| OTHER HURRICANE HAZARDS | |
| HURRICANE WINDS AND VULNERABILITY..... | 2-32 |
| FRESHWATER FLOODING..... | 2-33 |
| CHAPTER 3—VULNERABILITY ANALYSIS | |
| PURPOSE..... | 3-1 |
| HURRICANE SURGE INUNDATION AND MAPPING..... | 3-1 |
| HURRICANE EVACUATION SCENARIOS AND ZONES..... | 3-2 |
| VULNERABLE POPULATION..... | 3-12 |
| Critical FACILITIES..... | 3-14 |
| EVACUATION ROUTE FLOODING..... | 3-44 |
| EMERGENCY TRANSPORTATION NEEDS..... | 3-46 |
| MOBILE HOMES..... | 3-46 |
| MARINAS AND BOAT STORAGE..... | 3-46 |
| CHAPTER 4—BEHAVIORAL ANALYSIS | |
| INTRODUCTION | |
| PURPOSE AND OBJECTIVES..... | 4-1 |
| METHODOLOGY..... | 4-2 |
| PAST STUDIES..... | 4-2 |
| BEHAVIORAL ANALYSIS FOR NEW YORK STATE STUDY AREA | |

TABLE OF CONTENTS

| | |
|--|------|
| GENERAL..... | 4-4 |
| EVACUATION PARTICIPATION RATES..... | 4-4 |
| INTENTION TO EVACUATE..... | 4-4 |
| PERCEPTION OF VULNERABILITY..... | 4-9 |
| ANTICIPATION OF EVACUATION ORDERS..... | 4-16 |
| OTHER CONSIDERATIONS..... | 4-20 |
| PROBABLE PARTICIPATION RATES..... | 4-26 |
| EVACUATION TIMING..... | 4-28 |
| TYPE OF REFUGE..... | 4-30 |
| DESTINATIONS..... | 4-37 |
| VEHICLE USE..... | 4-42 |
| OTHER TRANSPORTATION RELATED ISSUES..... | 4-44 |
| TOURIST RESPONSE..... | 4-47 |
| SOURCES OF INFORMATION..... | 4-47 |

CHAPTER 5—SHELTER ANALYSIS

INTRODUCTION

| | |
|---|------|
| PURPOSE..... | 5-1 |
| GENERAL..... | 5-1 |
| SHELTER VULNERABILITY..... | 5-2 |
| SHELTER DEMAND..... | 5-2 |
| SHELTER INVENTORIES AND CAPACITIES..... | 5-21 |

CHAPTER 6—TRANSPORTATION ANALYSIS

INTRODUCTION

| | |
|------------------------------------|-----|
| OVERVIEW..... | 6-1 |
| ANALYSIS OBJECTIVES AND SCOPE..... | 6-2 |

TRANSPORTATION ANALYSIS AND INPUT ASSUMPTIONS

| | |
|--------------------------------------|------|
| TRAFFIC EVACUATION ZONES..... | 6-3 |
| HOUSING AND POPULATION DATA..... | 6-13 |
| BEHAVIORAL ASSUMPTIONS..... | 6-30 |
| ROADWAY NETWORK CHARACTERISTICS..... | 6-33 |

EVACUATION CLEARANCE TIME MODEL APPLICATION AND SYSTEM FORECASTS

| | |
|---|-------|
| CLEARANCE TIME MODEL DESCRIPTION..... | 6-86 |
| EVACUATING PEOPLE AND VEHICLES BY SCENARIO..... | 6-88 |
| PUBLIC SHELTER DEMAND / CAPACITY CONSIDERATIONS..... | 6-107 |
| EVACUATION TRAFFIC VOLUMES AND CRITICAL ROADWAY SEGMENTS..... | 6-107 |
| VULNERABLE EVACUATING POPULATION (NEW YORK CITY ONLY)..... | 6-132 |
| MASS TRANSIT EVACUATIONS (NEW YORK CITY ONLY)..... | 6-137 |
| ESTIMATED EVACUATION CLEARANCE TIMES..... | 6-145 |
| GENERAL TRAFFIC CONTROL MEASURES..... | 6-147 |
| NEW YORK STATE DEPARTMENT OF TRANSPORTATION INPUT..... | 6-149 |

TABLE OF CONTENTS

CHAPTER 7—HURREVAC / DECISION TOOLS

DECISION TOOLS

| | |
|--|------------|
| PURPOSE..... | 7-1 |
| BACKGROUND..... | 7-1 |
| HURREVAC | |
| HISTORY..... | 7-2 |
| HURREVAC 2000..... | 7-2 |
| USING HURREVAC..... | 7-3 |
| USING HURREVAC—TRACKING THE STORM | |
| WHEN THE STORM IS AT A DISTANCE | 7-3 |
| AS THE STORM GETS CLOSER BUT NOT YET THREATENING..... | 7-4 |
| WHEN THE STORM IS CLOSE AND THREATENING..... | 7-4 |
| OTHER FEATURES OF HURREVAC..... | 7-5 |
| THE NEXT GENERATION OF HURREVAC..... | 7-5 |
| OBTAINING HURREVAC..... | 7-6 |
| GLOSSARY..... | G |
| RELATED LINKS..... | RL |
| NEW YORK CITY HURRICANE HISTORY SUMMARY | |
| 1821 HURRICANE..... | 1 |
| 1893 HURRICANE..... | 3 |
| 1938 HURRICANE..... | 5 |
