

# INDIANA SILVER JACKETS

Indiana's Silver Jackets Team has been around since 2006 and continues to strive towards collaborative solutions to flooding and other water resource challenges across the State of Indiana

## INDIANA TEAM SUCCESSES

- Regional Emmy winning documentary on the 1913 flood
- Sharing of data and resources among agencies
- Coordination of Statewide LiDAR Datasets
- Workshops covering wetland importance, dam safety, fluvial erosion and flooding, and available flood tools
- Flood inundation maps for over 30 Indiana communities
- Severe weather/flooding coloring and activity books for children
- Statewide low head dam safety campaigns including local PBS documentary
